A STRONG ENDING

In the final quarter of 2009 Orad increased its sales by 12 percent to 9.0 million dollars. Over the entire year, however, turnover shrank by 16.9 percent to 26.9 million dollars. The annual net profit fell by 37 percent to 2.2 million dollars. Here, too, a recovery could be felt in the fourth quarter. Consequently the Board anticipates a positive business development in the current year.
